3. Claims 1-17 are allowed. Following is the statement reason for allowance:

The closest prior art, US 6,716,570 to *Nagarajan et al* discloses forming a pattern in a second layer 18 having a first critical dimension L1 [Fig. 1a], and transferring the pattern from the second layer to a first layer 16 having a second critical dimension L2 [Fig. 1c and col. 6]. US 6,235,609 to *Sengupta et al* discloses forming a pattern in a second layer 240 having a first critical dimension [Fig. 2B], and transferring the pattern from the second layer to a first layer 230 having a second critical dimension [Fig. 2E and col. 4]. None of the cited arts teaches or suggests, *inter alia*, setting a target trim amount for reducing a first critical dimension to a second critical dimension and determining a variable parameter for a process recipe using the target trim amount and a process model relating trim amount data to the variable parameter.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
